Makers of Better Engineered Sprayer Components for Over 40 Years

Standard Features:

- Special short compact design to accommodate existing boom constructions
- Large internal diameter to maximize flow and minimize chemical residue buildup
- Quick and easy installation, typically no adjustments required.
- Premium VITON™ o-rings come standard in the valve.

Upgrades:

- Viton o-rings are standard to make the valve more chemically compatible. Buna N o-rings are no longer available.
- Includes outlet plug to eliminate foreign material from entering and damaging the valve. For dried out valves, spray liquid silicone up spout to lubricate.

3 Styles Available

1" QN SST Style - Part #25175-V0

- Fits Wilger 1" Quick-Nut SST Tubing fittings and 1-1/4" NPT
 - Mates to 25171-00 boom end adapter, compatible with 1-1/4" NPT
- Retrofit application
 - Can be used with reducing bushing 25137-V0 (comes with viton o-ring) to work on 1" NPTM threads (assembly with adapter is #25176-V0)

25175-V0

1" NPTF Style - Part #25176-V0

- Fits any 1" NPTM threads
 - Consists of 25175-V0 body and 25137-V0 adapter

25176-V0

TWS (Case IH) Style - Part #41402-V0

- Fits Case IH Patriot sprayers that have thin-walled SS tubing (TWS) fittings
 - Mates to 41400-00 TWS tube end adapter
- Retrofit application
 - Can be used with reducing bushing 41403-V0 (comes with viton o-ring) to work on 1" NPTM threads

41402-V0

Replacement Dust Caps

- Replacement Outlet Caps - Part# 25175-10
- Recommended to be used, to eliminate foreign material from entering and damaging the valve.
- If valve becomes difficult to turn, spray liquid silicone up valve spout and turn, to lubricate valve core.

25175-10
