

Changes to Existing Combo-Jet Nozzle Bodies & New Product

This bulletin describes the discontinued Combo-Jet nozzle bodies in an old-style body configuration, replacing it with a new standardized Combo-Jet nozzle body.

Effected Parts: Combo-Jet Nozzle Bodies, Wilger Swivel Nozzle Bodies

[Old Style] Two-bolt Clamp Nozzle Bodies

Noticeably shiny plastic material and very square clamp are tell-tale signs of the old style body.

Dual-Outlet
Combo-Jet®
Nozzle Body
#40257-00

[New Style] Hinge-mount clamp Nozzle Bodies

A hinge mount nozzle body with a bolt-mount top is a tell-tale sign of this new style nozzle body, which is replacing the old style.

NEW STYLE
Dual-Outlet
Combo-Jet® Nozzle
Body with bolt-
mount hinge
#40622-00

[Intermediary transition part#] Hinged nozzle body with smooth clamp.

Dual-Outlet
Combo-Jet®
Nozzle Body
with smooth
clamp
#40517-00

Cross-reference Chart for Combo-Jet nozzle Bodies

Since the function of the nozzle bodies are the same, they can be cross-referenced to the newest style.

Boom Size	Outlet Style	# of Outlets	OLD STYLE [Discontinued]	Smooth Hinge [Phased to Bolt-Mount]	Bolt-Mount Hinge Clamp [Universal Offering]

New Part Numbers and Configurations of Combo-Jet Nozzle Bodies

This page describes some of the new varieties of products offered by Wilger that are variations of the new Bolt-Mount style Combo-Jet nozzle bodies.

Boom Size	Outlet Style	# of Outlets	Bolt-Mount Hinge Clamp [Manual On/Off Check Valve - 10PSI]	Bolt-Mount Hinge Clamp [10PSI Diaphragm Check Valve]	Bolt-Mount Hinge Clamp [No Module - Primed for PWM Solenoid]
3/4"	Combo-Jet	1	40611-MS	40611-00	40611-NM
		2	40612-MS	40612-00	40612-NM
		3	40613-MS	40613-00	40613-NM
	Square-Lug or Square-Peg	1	40651-MS	40651-00	40651-NM
		2	40652-MS	40652-00	40652-NM
		3	40653-MS	40653-00	40653-NM
1"	Combo-Jet	1	40621-MS	40621-00	40621-NM
		2	40622-MS	40622-00	40622-NM
		3	40623-MS	40623-00	40623-NM
	Square-Lug or Square-Peg	1	40661-MS	40661-00	40661-NM
		2	40662-MS	40662-00	40662-NM
		3	40663-MS	40663-00	40663-NM

Manual **On/Off** Check Valve

When knob is 'open', it operates as a check valve;
When knob is 'closed', it turns off flow to the body.

It can be a useful control style for liquid kits on planters/drills, as you can turn off whatever rows are not required on different crops.

Standard 10PSI Diaphragm Check Valve Version

Acts as a normal 10PSI diaphragm check valve

'No Module' Version (PWM)

No check valve included, as a PWM solenoid would be used. (PWM Solenoids not manufactured by Wilger, and sold separately)

Ordering Configurations in 4PSI and 15PSI Check Valve Versions

There are non-stocked configurations for 4PSI and 15PSI check valves that may be ordered in the diaphragm check valve (-00 version), replacing the -00 with -P4 (for 4PSI) and -P15 (for 15PSI).

For example, ordering a 1" dual Combo-Jet Nozzle Body with 4PSI check valve would be #40622-P4.

For these custom configurations, the 4PSI version would have a blue module; the 15PSI version using a red module.
