Better Engineered Sprayer Components for Over 40 Years

ORS Check Valves Bodies

- The most compact and simple check valve setup for any liquid kit.
- Compact Integrated Check Valves that mount on any O-ring Seal Outlet. (e.g. all Flow View™ Flow Indicator Outlets, all ORS Manifold Outlets)
- Available in interchangeable shut-off module options (more info below).
- *Available with 4 PSI, 10 PSI (standard) and 15 PSI check valve options.

ORS Check Valves Bodies Shut-Off Options with ORS Female Outlet

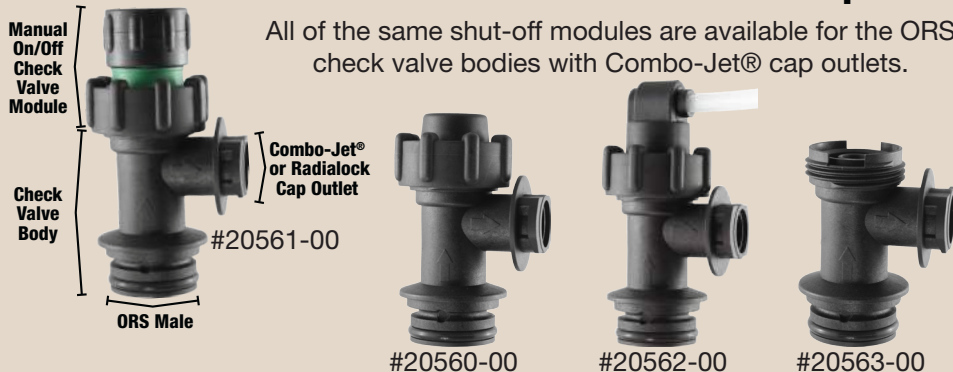

When knob is open (**ON**), acts as a 10PSI* check valve. When knob is closed (**OFF**), turns off flow to the outlet.

Compact diaphragm check valve turns off flow at 10PSI*.

Acts as 10PSI* check valve. Applying air to module will turn off flow to the outlet.

No body nut module included. Used with precision systems that mount onto body nut.

ORS Check Valves Bodies with Combo-Jet® Cap Outlet

Installation Tip: Lubrication

When installing any ORS fittings, using a dab of liquid silicone on the o-ring(s) makes it easier to install ORS male ends into an existing female flow indicator or manifold ORS outlet.

This tip is useful for all ORS fittings, and not limited to the ORS check valve bodies.
